

# Human Trafficking Awareness For Professionals

## PROGRAM OVERVIEW

**Purpose:** The statistics are absolutely alarming! Over 800,000 to 1 million people are lured into human trafficking in every year. The number of victims forced into the human trafficking industry is growing rapidly. As one of the fastest growing organized crimes today, this issue needs to be brought out of the dark and into the light. The issue is here in our own country and cities! Prevention is the key.

This training (up to 3-hours) meets the requirements for most professional licensing in the state of Michigan by beginning with Part 1: **Who are the Victims?** This session discusses the who, what, when, where, how and why of the crime, followed by Part 2: **Warning Lights.** This program gives insight on the lures, signs and ways to respond to human trafficking. This session will give you the awareness you need to protect your patients, your community and your family! The awareness gained can literally save a life.

Although Warning Lights cannot directly offer CEU's for this training, this course has been approved by various organizations and continuing education boards to offer CEU's for social workers, medical care professionals and dental professionals. Your completed session does provide you with an official "Warning Lights" certificate (optional) of participation!

All contracts are individually negotiated. Contact us today to schedule your own session of awareness and professional training course!
