Join The Fight! Ask us how YOU can make a difference!
Warning Lights is a 501c3 Nonprofit Organization
and only funded by donors, like YOU!

I want to share the reality of this crime with every student across this nation. It's in talking about it that we see prevention and safety become a reality. Awareness also builds value by protecting our bodies and guarding our hearts. I look forward to working with you. Let's take your circle of influence and change it into a circle of protection! You can learn more about my story through video at www.warninglights.org.

Be Aware OR Beware!

Awareness for Students High School & College

PROGRAM OVERVIEW

Purpose: The statistics are absolutely alarming! About 50% of those lured into human trafficking are minors. The number of victims forced into the human trafficking industry is growing rapidly. As one of the fastest growing organized crimes today, this issue needs to be brought out of the dark and into the light. The issue is here in our own country and cities! Prevention is the key.

Warning Lights gives insight on how human trafficking is often a relationship-based crime. It reveals the lures, signs and ways to respond to human trafficking. This program will give your audience of youth and young adults a stronger sense of how to protect themselves and others. The awareness gained by your audience can literally save a life.

This program encourages open communication about some common ongoing social struggles and concerns (including peer pressure, oral sex and pornography) that are faced on a daily basis. This program also shares ways to help others avoid becoming victims by explaining how your actions, words and choices affect others.

Awareness for Students Middle School

Warning Lights for middle school aged students brings the truth about the crime of human trafficking in an age appropriate way. The topics discussed are edited to meet these students where they are. There are specific lures that are often used for this age. This program offers insight on these various lures while making online, technology and app safety (including a discussion on the crime of sextortion) a focus. This session is a great way to start the conversation about staying safe in today's world.
