

## Human Trafficking

in short, it is modern-day slavery, where humans are sold against their will to do things they would not normally do on their own.

Human trafficking exists in various forms, including labor trafficking, service trafficking, and sex trafficking. The most common form of human trafficking in the United States is sex trafficking.

The statistics are absolutely alarming!

Over 800,000 people are lured into human trafficking yearly (U.S. Dept. of State). The number of victims forced into the human trafficking industry is growing rapidly. As one of the fastest-growing organized crimes today, this issue must be brought out of the dark and into the light. The crime is in our country and our cities!

### KIDS WITH A GUARDIAN

Personal Safety & Human Trafficking Awareness

For Kids: 3rd-6th Grade & A Guardian

## About 50% of those lured into human trafficking are minors!

U.S. Dept. of State

“Stranger Danger” no longer applies because facts prove that most abuse happens at the hand of someone the victim knows and trusts.

Prevention through awareness is the key. Warning Lights Kids gives an overview of age-appropriate personal safety skills that are pertinent to be a kid in today’s society. This session discusses lures that are specifically used to entice kids, explains the signs and provides ways to respond to human trafficking. This program will give your audience of both kids and their guardian (guardian attendance required) a stronger sense of how to protect themselves and others. This program encourages open communication and arms you with a variety of methods to make these safety tactics a habit for your family. This program also gives insight on ways to help others avoid becoming victims by explaining how your actions, words, and choices affect others.
