## Human Trafficking

in short, it is modern-day slavery, where humans are sold against their will to do things they would not normally do on their own.

Human trafficking exists in various forms, including labor trafficking, service trafficking, and sex trafficking. The most common form of human trafficking in the United States is sex trafficking.

The statistics are absolutely alarming!

Over 800,000 people are lured into human trafficking yearly (U.S. Dept. of State). The number of victims forced into the human trafficking industry is growing rapidly. As one of the fastest-growing organized crimes today, this issue must be brought out of the dark and into the light. The crime is in our country and our cities!

**Founder, Author  
& Speaker**

In 2013, when Jenn first heard the U.S. trafficking statistics, a fire ignited within her that led her to start a nonprofit organization called Warning Lights, whose mission is to fight human trafficking. Jenn's calling is to be a bold voice that creates protection through awareness and to reach into the darkness to meet those in the sex industry where they are. Jenn has created various Warning Lights programs that equip audiences of all ages with the knowledge and skills needed to fight human trafficking and its many dangers. She wants to be sure her audiences are informed and will be able to recognize the "Warning Lights" of human trafficking.

Jenn graduated with a bachelor's degree in Communication Arts. This degree fits her perfectly!

You will notice that she connects with her varied audiences in a way that is easy to listen to and to the point! Her audiences experience a multimedia presentation that raises awareness, creates compassion for others, and takes them on a journey that includes a variety of emotions. Jenn makes any session both entertaining and memorable.
